

Inspired by nature, we design biomorphic furniture.

“生物性”を宿す、という挑戦

We design chairs inspired by living things.

生きもののように、椅子をつくる。

Birds soaring across the sky.

空を舞う翼、

Whales swimming around the sea majestically.

悠々と海を泳ぐ鯨、

Plants continuing their circles of life within forests.

森とともに循環をつづける植物。

Taking inspiration from nature and capturing the essence of living forms, we make use of the flexible nature of molded urethane foam to give an organic shape to each piece of furniture.

自然界から着想を得て、
モールドウレタンの自在な造形力で
有機的なフォルムを描く。
